# International Open Access Week, 23-27 Oct

- Est. as Open Access Day in 2008.
- Institutional Open Access Week (April 2016) 2017 would be our first International Open Access Week.
- An honest reflection on the research environment.
- Staff needs combined with ambitious REF targets
- Identified a target audience – early career researchers

# Challenges

- Timing (half-term week)
- Derby is a multi-site campus (Derby, Buxton and Leek)
- Resource – 800+ of them, 1 of me.
- Digital only campaign.

# Opportunities

- Broad theme allowed for an introduction to Open at different research stages - conducting, publishing and promoting.
- Pre-prepared content planned for scheduled release over social media throughout the week.
- Single webpage for all the content.

# New for us – a communication plan

# The trade off!

Digital time

Analogue time

# Lessons learned

- Be realistic – about your audience and resources.
- Identify the challenges early on.
- Reach out early to colleagues outside your team / department
- Adopt a plan, and stick to it wherever feasible.
- Centralise what you can where you can.
